

# Doctors For Kids– Fall 2023 Newsletter

Fall is here after giving us a beautiful, prolonged summer. The colors are spooktacular in readiness for a scary, fun Halloween!

We have enjoyed the cute spirits roaming our office through the spider webs, pumpkins and Spooked rooms!

Tomorrow, we will have the best candy and chocolates for our patients that wish to stop by to TRICK OR TREAT.

## RSV VACCINES ARE HERE

We have the new RSV vaccines in the office. We are excited to offer this protection to keep our babies safe!

All infants less than 8 months born during or entering their first RSV season should receive one dose of Nirsevimab (50mg for infants <5kg or 100mg for infants >5kg). Infants born during the RSV season should get one dose of Nirsevimab as soon as possible after birth. It is recommended up to 19 months of age. We have a very small supply of the vaccine in stock, and it is backordered.

The insurances may not cover the vaccine. The cost is \$650.00, and it is a single dose vaccine.
